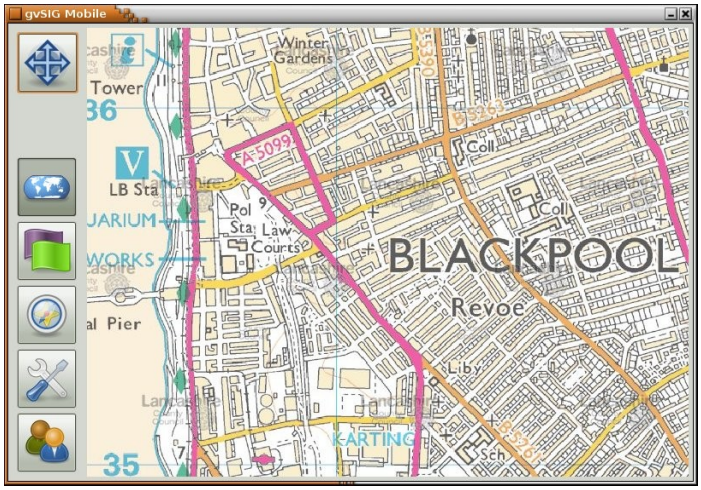
Unofficial gvSIG Mobile for Linux devices v. 0.1.6
Special British vintage gallery

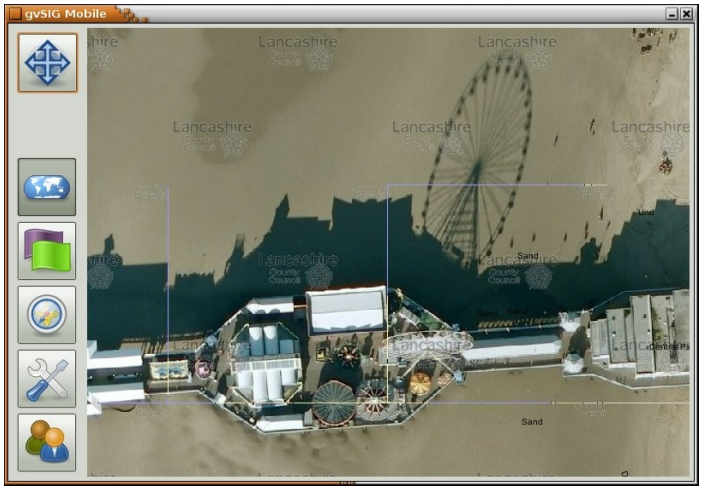
Author: Juan Lucas Dominguez (prodevelop.es). Special thanks to Manuel Gomez (ubikis.com) and Joseph Reeves (oadigital.net). This manual is under CC BY-SA license.

Unofficial gvSIG Mobile for Linux devices v. 0.1.6 gives you preconfigured access to a series of nice British web map services. Set the SRS to EPSG:27700 or EPSG:3857 to access them. They can be used in disconnected mode because the application uses a tile approach, even though the server is not aware of this.

Lancashire

Service title: MARIO (Maps & Related Information Online). Provided by: Lancashire County Council. Data from: Ordnance Survey and high-quality orthophoto. Service type: ArcIMS. Website: http://mario.lancashire.gov.uk





Kent
